

**Self Correcting Counting Board for Addition/Subtraction.** Student places counters on board. For example  $2 + 3$ . Student places two counters, then counts out three more and adds them to the board. The spot where the counters stop is the answer. Student looks above to see how the number should be written, if needed.

1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
